

# CODS Shopify App Setup Instructions

How to Setup CODS Shopify App:

After installation of Shopify App, go to “**Integration**” tab and enter your “**Client Code**” and “**API Key**”

The screenshot shows the 'Integrations' tab in the CODS Shopify App. The top navigation bar is orange with icons for Dashboard, Orders, Booked Packets, and Integrations. The 'Integrations' tab is highlighted with a red box. Below the navigation bar, the 'Integrations' section is displayed. It contains a form with two input fields: 'Client Code' (containing '1001') and 'Authentication Key'. Both fields are highlighted with a red box. Below the input fields is an 'Update' button.

You will find following form below the credentials. Where you can make you basic settings.

The screenshot shows the settings form in the CODS Shopify App. It includes several fields: 'Product Type' (dropdown menu with 'COD' selected), 'Service Type' (dropdown menu with 'Overland' selected), 'Origin' (dropdown menu with 'LAHORE' selected), 'Item Name in remarks' (checkbox checked), 'Item SKU in remarks' (checkbox checked), 'Profile ID' (text input with '20004'), 'Special instructions' (text area with 'Test instructions22'), and 'Weight Calculated default 0.5kg' (checkbox). An 'Update' button is located at the bottom left of the form.

Now you are ready to start booking through CODS Shopify App.

Go to **Orders** Tab.

Select your orders from left side multiple select box.

Select the service you want to choose from top.

Click on “Process Order” button.

The system will automatically start booking on CODS Portal, and assign tracking.
